POOL CLOSURES FOR THE SEASON LABOR DAY

Pool may close:

Due to acts of nature, weather (Thunder, lighting, rain,) fire ash, dust storms, safety reasons, disturbances, mechanical issues (Heater, pumps, etc.), air quality above 150 on the index, quality issues due to human defecation or outside temperature of 65 or less.

Keep in mind if the pool closes due to weather it could remain closed for the entire day, depending on time of inclement weather and weather forecast for that day. Pool closures will be determined by the Pool Management Company for each issue and/or occurrence.

Human defecation: When fecal matter is solid, the pool must be closed to treat the water. If the fecal matter is solid, it can take 30 to 60 minutes to get the pool PH to correct levels to where people can enter the pool again. If water testing fails and PH is not at correct levels, PH testing will continue every 30 minutes until safe. Loose stools and or diarrhea in the pool, potentially the pool has to closed for up to 24 hours or longer to verify that the fecal matter has been eliminated before the pool can be re-opened.
